

ARABIC LEVEL 2

شهادة

WHAT IS A SHADDDAH?

A shaddah is when two letters come together – one of which with a sukun, and the other with a harakah.

Instead of writing them both separately, the marking for a shaddah is written above the letter.

EXAMPLE

شَقَّ

In its basis, this word is comprised of three letters

ش – ق – ق

However, these two qaafs blend into one, so the word becomes

شَقَّ

PRONUNCIATION

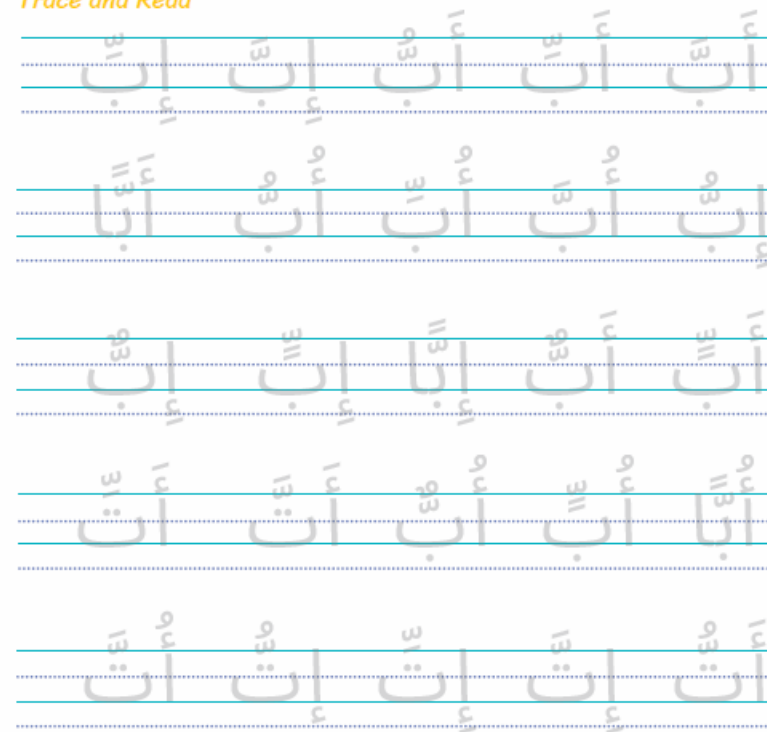

A word with a shaddah is pronounced almosted as if it has a bounce on it, due to there being two letters – even if its written as one.
